Available colors (3)

Short-sleeved shirt for men. Compressive and breathable garment that helps achieve maximum performance in intense gym exercises. Hybrid design with round neck and raglan sleeves for greater freedom of movement and comfort. FLATLOCK seams to prevent chafing and are away from high abrasion areas. Made with compression fabric, actively reducing fatigue levels and providing support to the muscular system. Super light and 4-way stretch for a second skin effect. Incorporates breathable MICRO-MESH SYSTEM technology on the back and armpits to evacuate sweat and regulate body temperature. Joma logos in rubber printing.

- Raglan short-sleeve
- Round neck
- Breathable light elastic fabric
- Includes Micro-Mesh technology in high perspiration areas
- Flat flatlock stitching
- Printed designs
- Fit type: regular
- 85% Nylon, 15% Spandex

Technologies

High quality
Garment that, due to its composition and/or technical characteristics, offers high quality standards. It incorporates technical fabric and cutting-edge technology to help the athlete achieve maximum performance.

Freedom of movement
Garment that, due to its construction, its production in elastic fabric and/or its technical characteristics, facilitates movement when practicing sports. Thanks to this adaptation, the body moves with total freedom.

Breathable
Fabric that offers proper sweat breathability. Thanks to its composition or the incorporation of systems like MICRO-MESH SYSTEM or perforations, it helps to expel moisture and keep the body dry during sports practice.

Extra comfortable seams
Technology that consists of constructing the garment with one or more systems that prevent chafing on the skin and optimize comfort, such as FLATLOCK seams, heat-sealed seams, and laser-cut finishing.

Lightweight
Garment made of lightweight, comfortable and versatile fabric, which allows the athlete to feel cool at all times. It offers additional comfort when exercising.

Elastic
Elastic fabric that fits the body and moves with you during sports, allowing you to exercise with total comfort.
